SKILLS

For ten years, I was a digital marketing specialist and part-time front-end web developer; but, I joined a coding bootcamp so that I could brush up my skills and become a full-time developer. We built dozens of front-end, back-end and full-stack web apps, and I'm currently working on a personal mobile app. I couldn't be happier, and I'm looking for an awesome team that I can join!

PROJECTS

Tech Balanced Home - *Full-Stack Web App*
